TAR'IGYM-2024: A Showcase of Innovation, Research, and Real-World Solutions

TAR'IGYM-2024, jointly hosted by AIMSAR and TAU on November 6, 2024, showcased innovation and research excellence with 320 poster presentations and 7 Hackathon entries. Inaugurated by Hon'ble VC Dr. H. Vinod Bhat and Chief Guest Dr. Pruthvish S., the event fostered interdisciplinary collaboration. The Hackathon tackled real-world challenges like attendance monitoring and alumni engagement, while poster presentations highlighted diverse research, offering valuable feedback for publication.

TAU Opens Herbal Garden for Sustainability

On November 29, 2024, The Apollo University inaugurated the Herbal Garden to promote sustainable health education and environmental resilience. The garden features around 100 medicinal plants, selected for their therapeutic and ecological value, and serves as a "living laboratory" for practical exposure to traditional medicine and Ayurveda.

Guest Lecture Series on Clinical Data Science

The Department of Biomedical Sciences at TAU in collaboration with Maastricht University launched its Guest Lecture Series in Clinical Data Science. Dr. Ananya Choudhury, Assistant Professor, presented on "Data Quality and Prediction Model Development" and Dr. Hannah Mary Thomas, Imaging Scientist, discussed "AI Implementation in Radiomics for Head and Neck Cancers," sharing insights from her research supported by the DBT/Wellcome Trust India Alliance.

The Apollo University Prepares for ISO Certification with Staff Awareness Session

The ISO 21001 Awareness Session, held on November 19, 2024, at TAU, aimed to enhance faculty and administrators' understanding of ISO 21001 standards. The session focused on how these standards can improve management systems, update processes, and drive better outcomes in educational organizations. Participants learned about the benefits of adopting the standards such as fostering a learner-centric approach, enhancing institutional credibility, and promoting continuous improvement. As part of the university's efforts to achieve ISO certification by mid-2025, the session prepared staff members, both teaching and non-teaching, to lead the implementation and address the criteria effectively.

Expert Session on Research & Proposal Writing

The Apollo Institute of Pharmaceutical Sciences, in collaboration with Allied Health Sciences, hosted an expert session on writing research papers and funding proposals, led by Dr. Arpana Parihar from CSIR-AMPRI, Bhopal. Dr. Parihar shared strategies for crafting impactful papers, securing funding, and avoiding common errors.

Distinguished Lecture Series

On November 14, 2024, Dr. Sandeep Satsangi, Senior Consultant at Apollo Hospitals, Bengaluru, delivered a lecture titled "What's New in Hepatitis B & C?" as part of the Distinguished Lecture Series AIMSAR-Chittoor. The session was streamed online and attended by participants from over 30 locations across Apollo establishments.

Graduation Milestone

The graduation ceremony for the 2019 batch at Apollo College of Physiotherapy celebrated the success of 44 students, marking a significant achievement.
