## AKC Concludes Month-Long Swachhata Campaign With Rally and 200 Sapling Plantation

Apollo Knowledge City's Special Campaign 4.0 for Swachhata included cleaning drives, record weeding, and the planting of 200 saplings from October 3 to 28. The campaign concluded with a "Clean Campus, Safe Campus" rally, engaging over 200 students.

### TAU Hosts Inaugural International Conference on Mental Health at Work

The Apollo University inaugurated its first International Conference on "Mental Health Matters at Work" on October 9, 2024, emphasizing the theme "It is Time to Prioritize Mental Health in the Workplace." The two-day event, led by Chief Guest Dr. Indla Ramasubba Reddy of VIMHANS Hospital and presided over by Vice Chancellor Dr. Vinod Bhat, features sessions focusing on critical aspects of mental health in professional settings.

### UoL Team Visit @TAU

Delegates from the UoL visited TAU on October 21 and 22, 2024, as part of an Advanced Strategic Partnership. The visit focused on collaborative discussions, student engagement, and the launch of 2+1 programs, where students complete two years at TAU in India and their final year at UoL earning dual certification. The UoL delegation was led by Mr. Ian Jarvis, Director of International Academic Operations, and Dr. Nora Musyoka, School of Business.

### TAU Hosts Expert Session with ICAR Scientist Dr. O.N. Tiwari

Dr. O. N. Tiwari, Principal Scientist and DST Task Force Member from the Indian Agricultural Research Institute, New Delhi, visited our university on Oct. 18. The Office of Research, TAU organized a two-day academic program titled "Grant Gurus: Elevating Research Excellence" focusing on strengthening the research skills of TAU faculty and scholars, particularly in competitive grant writing and funding strategies.

### Innovation Club Publishes First Patent on Biodegradable Material

The Innovation Club members, alongside two faculty, have published their first patent: "Revolutionizing Sustainability: A Biodegradable Material from the Whole Corn Plant." Developed by students from the Schools of Technology and Health Sciences, this invention aims to replace conventional plastics with an eco-friendly alternative made from corn plant waste.

### Graduation Day

The Graduation Day for the II batch students of ACoPT was held on October 25, marking the successful completion of their BPT course and the awarding of diplomas. This momentous event celebrated the hard work, and dedication of the graduating class.
